ASTER CHINENSIS

All staple asters are without exception grown on our own grounds. Carefully rogued to type and clean of yellow centers. They will give utmost satisfaction to the market grower and florist. We grew some of the novelties but most were imported.

ROYAL. An earlier form of the branching aster. We consider this the most important in the whole list for the commercial grower. Almost absolutely non-lateral, stem of great length and flower of exquisite form and size. Coming into bloom with the last of the Queen of the Market it is a most important factor in the cut flower market, both under glass and outside. It runs to about six stems, sparse, and can be planted closely. Our stock of this is of exception and with the rest of our private garden we recommend it very highly. White, shell-pink, lavender-pink, purple or mixed. Pkt. 10c, ½ oz. 25c, ¼ oz. 40c, ½ oz. 75c, ½ oz. $1.25, 1 oz. $2.25.

QUEEN OF THE MARKET. We offer in this most important early aster, strains of our own making. This has come to us with great care from superb stock plants and we can recommend it very highly. White, crimson, light blue, shell pink, light rose, dark blue, and light shades mixed. Pkt. 10c, ½ oz. 25c, ¼ oz. 45c, ½ oz. 75c, 1 oz. $1.00.

EARLY WONDER (Extra Early Hohenzollern). The largest and best of early asters. This is a branching combi aster of rather sparse growth, needs little disbudding. Colors are good, but must have right growing conditions else it will show some yellow centers. We offer three colors only, white, bright rose, and lavender. The rose is very good and the lavender is the very best early market flower in this color. Extra for the market grower. Pkt. 10c, ½ oz. 30c, ¼ oz. 45c, ½ oz. 75c, ¼ oz. $1.25, ½ oz. $2.00.

LAVENDER GEM. A fine, upright combi aster, good size, long stem, never comes yellow centered. The earliest true lavender. Our stock of this has wonderfully flourished this season. Pkt. 10c, ½ oz. 20c, ¼ oz. 35c, ½ oz. 65c, ½ oz. $1.00, ½ oz. $1.65, 1 oz. $2.25.

TRIUMPH COMET. With us this magnificent aster has shown fully equal in size, and superior in form to the much advertised *Astermum* and in addition the colors are much more delicate and desirable. Well rounded flowers, high centered, good stems and free blooming, coming on directly after Lavender Gem and Snowdrift. This variety should make a reputation as a market sort. It is strictly upright, very compact, and can be planted closely. Colors, white, azure, rose, shell pink or mixed. Pkt. 15c, ½ oz. 25c, ¼ oz. 50c, ½ oz. 75c, ½ oz. $1.35, 1 oz. $2.00.

VICK'S MIKADO. The finest of the midseason combi asters, very vigorous and free, the immense feathery flowers reaching under fair cultivation as large as 6½ inches in diameter. This aster receives our special attention here and we offer an exceptional grade of seed. White, rose, lavender-pink, lavender, purple, mixed. Pkt. 10c, ½ oz. 25c, ¼ oz. 40c, ½ oz. 75c, ½ oz. $1.25, 1 oz. $2.00.

SHELL PINK MIKADO. Identical with Mikado, pure shell pink in color, a fine grower. Pkt. 15c; trade pkt. 25c.

GIANT PURITY. Distinct in form, flower well rounded and very solid. Of vigorous growth, upright, compact, and very free. Better for making up than Early Branching, in bloom at same time. Pkt. 10, ½ oz. 25c, ¼ oz. 40c, ½ oz. 75c, ½ oz. $1.40, 1 oz. $2.25.

DAYBREAK. Identical in form and growth with Purity. Color true Daybreak Pink. Same price as Purity.

GIANT COMET. (Bodgers Giant Branching). This aster is so superior to the common type of Giant Comet that we have discarded the latter entirely. A true giant in growth, branching in form of plant, stems of great length, flower beautifully formed and curled to the center. We recommend this very highly, both for market and garden use. Quite late to bloom, comes with the last of the late branching. White, shrimp-pink, light pink, lavender, dark blue, crimson or mixed. Pkt. 10c, ½ oz. 25c, ¼ oz. 40c, ½ oz. 75c, ¼ oz. 95c, ½ oz. $1.50, 1 oz. $2.50.

LATE BRANCHING. A splendid strain of a well-known aster. Lavender-pink, white, pink, dark violet, light blue, rose, crimson or mixed. Pkt. 10c, ½ oz. 20c, ¼ oz. 35c, ½ oz. 65c, 1 oz. $1.00.

LATE BRANCHING PEACH BLOSSOM. Peach blossom pink, slightly deeper in color than lavender-pink, flower of more rounded form. Pkt. 10c, tr. pk. 20c.

ENCHANTRESS PINK. Very vigorous grower, upright in habit, flower large, color soft. Delicate pink, stands very well both as shipping and bedding aster. Pkt. 15c, ½ oz. 30c, ¼ oz. 45c, ½ oz. 75c, ¼ oz. $1.25, ½ oz. $2.25.

THE KING Type. Very large and vigorous plants, late midseason. Large flowers with spiky, quilled petals, well covered centres. Easy to grow. Seven colors separate, white, rose, violet, lavender, crimson, lavender-pink, shell-pink, or mixed. Pkt. 10c, ½ oz. 25c, ¼ oz. 40c, ½ oz. 75c, ½ oz. $1.25, 1 oz. $2.00.

THE AMERICAN BEAUTY Type. These are very late, and the rankest growers of all. Very long stems and large flowers. Two colors only. American Beauty (the old Lady Roosevelt shade), and September Beauty, a giant shell pink. Pkt. 15c, Trade pkt. 40c.

HUNTINGTON'S SUPERBA. A giant branching combi aster, of same habit as Mikado Pink, but much larger, blooming with late branching. Immense size, perfect form, long stems. The finest white combi aster,

Asters--Continued

Superior to Crego, Gt. Hohenzollern, or Mikado. Pkt. 15c, 1/5 oz. 30c, 1/8 oz. 45c, 3/4 oz. 75c, 1/2 oz. $1.50.

Peerless Pink. The finest of the late branching in its color, rich shell pink, flower of finest possible form. A strong and easy grower, reaching thirty inches height under most common cultivation. Our stock of this is carefully grown and will please the most critical. Pkt. 15c, 1/6 oz. 25c, 1/8 oz. 40c, 1/4 oz. 75c, 1/2 oz. $1.35, 1 oz. $2.50.

Sawyer Asterum. The pink is a beautiful shade, warm and bright, lightening with age, instead of growing deeper as do most pinks. We have a good stock of carefully grown, tall, and deep lavender. Pkt. 10c, 1/4 oz. 35c, 1/8 oz. 50c, 1/2 oz. $1.00, 1 oz. $1.75.

Late Branching Non Lateral White. This is without doubt the finest white aster in the late branching type. Introduced about eight years ago, it gave splendid results for a few seasons but soon commenced to go back. For the past two years it has been almost off the market, and has been dropped by the large seed houses on account of scarcity of stock. This season we have a fair stock and we offer it at the prices below. Pkt. 10c, 1/2 oz. 25c, 1/8 oz. 40c, 1/4 oz. 75c, 1/2 oz. 95c, 1/2 oz. $1.50, 1 oz. $2.50.

Crego. A fine late comet aster, considered by many the finest of this class. For making up, when about two-thirds open, this aster has no superior. We offer five colors: White, rose, purple, lavender and shell-pink. The first two are the strongest growing and make the largest size. The lavender is a pure, gray-lavender, of most beautiful form, giving when about two-thirds open, all the effect of a lavender water lily with finely cut petals. The same is also true of the rose and purple at this stage of growth, when the tips of the petals of both are shaded almost white, giving the flower a most beautiful effect. The colors in this aster seem very hard to establish and will be found very slightly mixed, probably 5 per cent. Pkt. 10c, 1/8 oz. 25c, 1/8 oz. 40c, 1/4 oz. 75c, 1/2 oz. $1.25, 1 oz. $2.00.

Late Upright. Very tall growing, compact variety. Flowers in form and size resemble the branching type but lean a very little toward the Victoria in arrangement of petals. This can be planted closer than branching type and will show no soiled flowers from rain unless it is a heavy, driving rain. Three colors, white, rose and crimson. Pkt. 10c, 1/8 oz. 35c, 1/4 oz. 50c, 1/4 oz. 80c, 1 oz. $1.50.

Late Upright Lavender-Pink. A splendid upright aster, suitable for cutting or for lifting in field and potting. Good stem, large flowers or delicate lavender-pink. Our stock of this is especially fine. Pkt. 10c, 1/5 oz. 20c, 1/8 oz. 35c, 1/8 oz. 60c, 1/2 oz. $1.00, 1/2 oz. $1.50, 1 oz. $2.50.

Stem 18 to 24 inches. It is of the branching type and makes a rather lower plant than Semples. Pkt. 10c, trade pkt. 25c.

DAHLIAS

For several years I have been growing Dahlias, selecting from more than a thousand different varieties the kinds that are best adapted for general garden culture. My experiments have proved that many varieties, especially the lighter colored Cactus and Decorative Dahlias, are distinct failures in the northern and middle states and more than 250 or 300 miles from the Atlantic seaboard. The varieties in this list are "survivals of the fittest," and will be found to do well wherever Dahlias can be grown at all. Those who have "no luck with Dahlias" will do well to try them. The fields have been carefully rogued, discarding all sorts having yellow centers and other undesirable traits.

At the prices here quoted, the tubers will be sent by mail or express, charges prepaid.

CACTUS DAHLIAS

In form the blooms of the Cactus Dahlias strongly resemble chrysanthemums. The petals are long, narrow, incurved, and frequently twisted, a combination which gives the blooms a graceful appearance. Cactus Dahlias are generally better than the Show Dahlias, and the varieties here offered are the best bloomers and the most desirable in the respective colors.

AURORA. Pink, tinted with white and overlaid with yellow; early and extremely free-blooming. Each 20c, per dozen $2.00.

COUNTESS OF LORDS. Deep salmon-pink marked with amber. A dependable variety, early and free-blooming. Each 25c, per dozen $2.50.

HARBOR LIGHT. Bright orange-red. Each 20c, per dozen $2.00.

KRIEMHILDE. Outer petals delicate pink which gradually shades to a pure white center. Each 20c, per dozen $2.00.

MARGUERITE BOUCHON. Brilliant shade of soft rose, with large white centers and well-defined white tips. Each 50c, per dozen $5.00.

DECORATIVE DAHLIAS

The blooms of the Decorative Dahlias generally are larger than those of the other classes, while in form they vary between the Show and Cactus types. Some varieties show flat petals and others are red-ringed, incurved, and curiously twisted. Blooms are borne on long, stiff stems, which make them of more than ordinary value for cutting.

JEANNE CHARMET. A delicate shade of lilac-pink, shading to pure white toward the center, with a tinge of light yellow on the margins of the petals. Each 50c, per dozen $5.

MINA BURGUE. Glowing scarlet, rather dark in a general aspect, a color that makes the blooms particularly brilliant in garden decorations and for cutting. Each 30c, per dozen $3.00.

MAID OF KENT. Cherry-red tipped with white. Each 25c, per dozen $2.50.

A. D. Livoni. Soft pink; flowers perfect round, like a ball, with each petal tightly quilled.

CUBAN GIANT. Bright maroon blooms are ball-shaped and produced in abundance. Each 30, per dozen $3.

DREER’S WHITE. Pure glistening white and considered by many the most valuable clear white variety; plants are strong growers and are most effective when used in masses or as garden hedges.

I. N. JQUAITH,
Sherburne, N. Y.

Plants for Perennial Gardens

During the past few years the demand for perennials has increased so rapidly that the average grower has not been able to keep up with the demand. The plants are used by the hundreds in every garden, and some varieties find their greatest usefulness in floral establishments where they are worked into formal designs.

In many cases the average hardy garden or border suffers from an unsuitable selection of perennials. The old favorites, like the Aquilegias, Digitalis, the Michaelmas Daisies, or the Hardy Chysanthemeums, deserve a prominent place, but they should not be used to the exclusion of others equally good. Moreover, a careful selection of plants will provide blooms from early spring until winter puts a mantle of white over the garden.

The plants which are offered in this list are field-grown and are wintered outdoors in the extremely cold winter climate which we have along the shores of Lake Erie. During the growing season they are given the best possible cultivation, and without question will succeed in any location to which they may be transplanted.

Not less than six plants of one variety at the dozen price. If one of each of six different varieties is ordered, the single price will be charged.

PEONIES

Among all the perennials none are more popular than the Peonies. One may have pure white blooms, white flecked with crimson, light pink, deep red, combinations of white and red, flowers that are full double, that are semi-double, and that are single. By carefully selecting the varieties, with regard to time of blooming, your garden may have flowers from the latter part of May until early July. After once planted, they need but little care, and will throw up shoots year after year with increasing quantities. It is important to have the soil spaded from 15 to 18 inches deep and to incorporate a small quantity of well-rotted mure, but it should not come in contact with the tubers; also be sure that the "eyes" are not more than 3 inches below the surface of the soil. It is not advisable to set Peonies in the spring, as growth usually starts before they can be dug. About the first of September is the ideal time, and we will be glad to accept orders at any time for fall shipment.

Peonies are extremely profitable and easily grown for the cut-flower market, and should be found in large quantities on the grounds of very florist grown for the trade. There are certain varieties which have particular value for this purpose, and we will be glad to give full information upon application.
